Is your Software System still meeting your Objectives?
Is your Software System enabling your Business to Grow?
Is your Software System a Silent Partner or an Irritating Constraint?

CONSIDER & EVALUATE OUR LUMBER SOFTWARE :

by **WoodPro Software Inc.** of Richmond, B.C.

2 Great Choices:

- 1. WoodPro 2000: The Popular Choice for Most Businesses**
- 2. WoodPro Insight: The Future, the Next Generation**

For over 20 years, WoodPro Software has been creating powerful programs for the Lumber Industry. From Sawmills, to Wholesalers, to Brokers, to Treating Plants, to Lumber Yards ... WoodPro Software has been providing integrated software solutions to meet the unique and demanding requirements of our industry. With all business operations seamlessly coordinated within a single application, WoodPro helps manage Finances, Resources, Information, Customers and Suppliers more effectively. WoodPro's programs have gained from hundreds and hundreds of projects and users to deliver today's time-tested, innovative uses of its applications. Presently, WoodPro performs user business of over \$1.5 Billion Dollars of Annual Sales Volumes ... and it can flawlessly perform your business too.

WoodPro programs are *GUI* (Graphic User Interface) and *Microsoft Windows* Based, and are easy for everyone to learn and navigate. Just click your mouse ... drag and drop ... and copy and paste ... just like regular Windows programs. Double-click and convert your Price or Quantity Units of Measure back and forth from EA to PC to LFT to BFT to MBF or others ... with no calculations. Have instant screen displays and reports for any business information you seek, from Executive P+Ls and Cash Forecasts ... to A/P and A/R functionality ... to Inventory Recording and Stock Taking ... to VMI Inventory capability ... to Remanufacturing and Machining ... to Electronic Dispatching ... and to any and all Sales Processes that can be imagined. And everything supported by a Customer Service Staff that is fully trained, courteous, accommodating ... and FAST !
