**CYPRESS ... ‘ *The Wood Eternal* ’**

**CYPRESS ... ‘ *The Cedar Beater* ’**

**BOARDS – PATTERNS – LUMBER – TIMBER**

**4/4” – 5/4” – 6/4” – 7/4” – 8/4” and 3x4’s to 16x22’s**

**SELECT – #2 – *sometimes* PECKY**

**GREEN – KILN DRIED – FULL RGH SAWN**

**Been in the CYPRESS business since 1982. Over these 35 years, have specialized in the full array of CYPRESS products, including Fencing, Boards, Patterns, Lumber, and Timber. For now, currently TRADING on TRUCKLOAD VOLUME CYPRESS for the WHOLESALE DISTRIBUTION CHANNEL, matching the right sawmill to the right requirement.**

**CYPRESS is considered a “betweenner” regarding softwood or hardwood. CYPRESS trees are softwood conifers, yet shed foliage in the fall like hardwoods. CYPRESS Design Values are sponsored by the Southern Pine Inspection Bureau (SPIB), yet Appearance Grades are published by the National Hardwood Lumber Association (NHLA). CYPRESS is usually the most affordable of three North American naturally oiled softwoods, the other two being Cedar and Redwood, making CYPRESS a good choice for wood that’s exposed to moisture conditions that cause decay, and in exterior coated applications such as siding, fascia, soffits, trim, decking, fencing, posts and timbers. Because CYPRESS also machines well, resists warping and splitting, and glues, sands and finishes well, it is suited for interior uses such as paneling, moulding, millwork, cabinetry and flooring. CYPRESS “*THE WOOD ETERNAL*”, having been used for thousands of years, continues to provide value for today’s lumber industry:**
